

1. Preconference Course: CLEFT RHINOPLASTY

This course is targeted at surgeons involved in cleft rhinoplasty. The lecture and video demonstrations will cover the basics and advanced know-how to enable the participants to adopt the nuances of cleft rhinoplasty in their practice. The course will also have a one-hour one-to-one discussion with the course participants to help discuss the interesting cases presented by the participants. Our faculty has extensive experience in this field and is committed to ensuring that participants leave with the confidence and knowledge necessary to excel in their practice.

Course Faculty:

International: Dr Ting Chen Lu

National:

Dr P V Narayanan
